

COME AND PLAY

We are a small, warm, welcoming, home-from-home style nursery based in Bathampton. We are very lucky to have two large gardens, one for babies and one for toddlers/pre-school. We are next to the canal and regularly go on nature walks. This provides opportunities for children to engage with nature, learn new skills and discover the world through outdoor play. Through our forest school activities, we will build on the children's confidence, fitness, resilience, team work, creative thinking and ability to take appropriate risk. We believe that learning should be child led with our practitioners acting as facilitators, extending their vocabulary and knowledge.
